DETAILED ACTION

The following is an examiner's statement of reasons for allowance: The amendment filed 29 September 2006 puts claims 1-37 in condition for allowance because the requirement of using a thermal process to make a product containing the metal and the first reactant in the method steps of the dependant claims overcomes the teachings of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
